

THE CITY INSPECTOR ON FAT-BOILING SUGAR-SACCS.
CITY INSPECTOR'S DEPARTMENT.—
New-York, Sept. 24, 1864. {

MOSSES, HARRIS, WILSON and others—Gentlemen. I have the honor to acknowledge the receipt of a communication from you, complaining of the fat-boiling businesses existing in the vicinity of your residences, on the west side of the city, from Thirty-sixth to Fortieth-street, and requesting information in regard to the proper mode of having them closed.

But this is only an analytical remedy, not a cure, of the evil. The only effectual remedy is the entire prohibition of such businesses within the city limits. This can only be done by the Board of Health. Let me assure you, that the majority of such persons, I understand, has their Mayor, requesting him, as empowered by law, to concur in that Board, for the purpose of taking measures to abolish these and similar nuisances. The Mayor, not being convinced of its necessity, declined to do so; and although I have repeatedly implored him, he still declines. Subsequently, I addressed the Common Council upon the subject, and that body, through their Committee, made a long and laborious investigation, and finally, after much trouble, which will be found in the proceedings of the Board of Alderman of the 2d of May last, they arrived at the same conclusion as myself as to the necessity of the entire prohibition of such business within the city limits, and as to the only power which existed to prohibit them, namely, the Board of Health, and a resolution was adopted requesting the Mayor to concur. The Mayor still declining to do so, I have twice requested the Common Council to concur themselves, and am awaiting their action.

However, he has some means of involving the city in litigation and loss, by any action taken when so convened by themselves, have not yet acceded to my request. This, gentlemen, is the master stands at present. I have made every effort in my power to remedy the evil complained of by you, as well as other sub-sabotages of a character dangerous to the lives and health of our citizens. It only now remains to be seen whether those holding the power will yield to the sanitary sense of action, will continue to refuse to exercise that power. The laws relative to the public health of this city are ample for every contingency. No city on the continent is blessed with more efficient laws for the protection of the public health, if only those having the power will perform their duty.

Very respectfully, your obedient servant,
F. L. A. BOOK, City Inspector.

FUNERAL OF BRIG.-GEN. DAVID A. RUSSELL.—The funeral of this gallant officer took place from the City Hall at 3 o'clock yesterday afternoon. His remains were conveyed hither on Wednesday by Capt. Russell and Lieut. Russell, of his personal staff. At 21 o'clock, the Eighty-third Regt., N. G., arrived in the Park, and at 22 the body was removed from the Governor's Room and borne to the bier by a company of the 8th, detailed to guard the remains, followed by the pall-bearers and officers invited to participate in the ceremonies. The pall-bearers were: Maj.-Gen. Franklin, Hartwell, Butfield, Sanford, and Brig.-Gen. Sandford and Webb. The procession was formed in the following order:

Section of Police, under Capt. Turner; Elihu Reynolds, N. Y.; Dr. J. C. Smith, Surgeon General; Capt. Russell, with detailed guard of Eighty-third Regt.; horses of the 12th, with heads reversed in stirrup staff officers and officers on passage, and the Sons of Washington Co.

The cortage proceeded down Broadway and through Courtland st. to the Troy boat, which will convey the remains to Washington County, N. Y.

MAMMOTH OIL COMPANY.—We should judge by the large number of these corporations now being organized, that the petroleum oil business was very prosperous. The discovery of this oil has been worth millions of dollars to the Government. The shipments abroad are at present enormous, and are steadily and rapidly increasing. A new company, known as the "President," is soon to be formed.

We have a representative capital of one million dollars. We have a list of the stockholders, and it embraces some of the strongest names in the city of New York, including seven Bank Presidents, and other leading men connected with some of the largest institutions in the country. We have no interest in any oil company, but do not hesitate to say that had we money to invest, we should take some of this oil. If you desire to pay large dividends, and can afford to do so, we would be pleased to receive a sum of money from our friends who have money to invest in corporations of this character, will find this new company worthy of their attention. See advertisement in our columns.

BUSINESS NOTICES.

THE FALL HAT.—Of course all hat-buyers will want a new hat, and they will be delighted to know that it is now ready and awaiting inspection at No. 213 Broadway, corner Fulton-st. We pronounce the hat for this season the most elegant ever turned out, even by the successful manufacturers, and perfect for its universal popularity.
